**Notice Inviting Bids**

The Embassy of India, Moscow invites bids from interested contractors for the following work in relation to lawns in the main Chancery Complex located at Vorontsovo Pole 6-8:

- i) Dismantling of the existing old concrete platform of Gandhi Statue and laying a fresh concrete platform in the lawn across main chancery building. It is desired to construct this platform with reinforced concrete cement and supporting net of steel beams so that the structure is durable and could withstand the weight of the statue. It is also planned to fix granite (black/black grey) sheets on the top of the platform and to construct a passage with cement bricks that leads to this platform. Further, it is also desired that the edge of the granite sheets on the horizontal surface of the platforms be curved in order to prevent water to seep under the granite sheets on the vertical surfaces. The dimensions of this planned structure are as following:
  - a) RCC Platform I with supporting steels beams (Length\*Width\*Height): 3\*3\*1.1 mts (Note: A pit has to be dug so that major part (3\*3\*0.8 mts) of this platform is beneath the soil level in this lawn)
  - b) RCC Platform II with supporting steel beams on top of the Platform I (Length\*Width\*Height): 2\*2\*0.6 mts
  - c) Granite sheets of at least 3cm & 2cm thickness on horizontal & vertical platform surfaces respectively (Note: laying of granite sheets on Platform I shall only be on the surface above the soil level)
  - d) Cement brick passage: 1.2\*2.4 mts
